

The Sinclair Broadcast Group uses the public airwaves free of charge and is obligated by law to serve the public interest. Your role is to ensure that the public interest is protected.

I am writing to ask you to stop Sinclair's planned actions to subvert our democracy through the use of sensationalized propaganda, which they are calling "news," in the form of an hour-long show entitled "Stolen Honor." You can require them to label it as the propaganda that it is - and require them to air another point of view on the subject - so that Americans can make up their own minds. As it is, Americans are being denied this right and opportunity.

Sinclair's stations reach 25% of Americans. Sinclair is abusing its license, is further destroying the credibility of American news programs, and is undermining our freedom. You are obligated by your very existence to protect the sanctity of this public property.

Thank you.
